

Cube Infrastructure Managers – Portfolio Assessment Intern (Valuation Team)

Job Profile

Cube Infrastructure Managers is actively seeking a Portfolio Assessment intern to join its Valuation team. Collaborating closely with the Head of Valuation, the selected candidate will play a pivotal role in analyzing the value creation of our diverse portfolio investments. We are looking for an intern with strong analytical, entrepreneurial, communication, and engagement skills, ready to contribute actively and pragmatically to our valuation analysis.

About Cube Infrastructure Managers

Cube IM is a specialized fund manager in Infrastructure, having successfully raised 4.2 billion EUR across four funds: Cube I (liquidated), Cube II & Cube III, pursuing a (co)control buy-and-grow strategy, and the CEBF focusing on greenfield broadband projects. As part of our commitment to diversity and inclusion, Cube IM strives to create a workplace that embraces a variety of perspectives.

Internship Responsibilities:

- Assist in the delivery of valuation analyses for selected Portfolio Investments.
- Support the follow-up on key events and their impact on value creation.
- Contribute to discount rate determination, considering evolution in Business Plans.
- Assist in the detailed review of models, including operating assumptions, valuation parameters, and DCF analysis.
- Participate in the preparation of valuation outcomes and key documents during quarterly reporting periods.
- Aid in the regular management and reporting of timelines and data requests for the reporting cycle.
- Provide support for tasks related to financial communication, finance, and risk management.
- This internship role involves supporting various aspects of valuation analysis, and potential involvement in broader financial and risk-related activities as needed

Candidate profile:

- Currently pursuing a degree in Finance, Economics, or a related field, ideally with a focus on project finance.
- Strong academic record, demonstrating a solid understanding of private equity, infrastructure investment, and financial modelling.
- Knowledge of valuation methodologies and a keen interest in the nuances of infrastructure project finance.
- Exceptional quantitative and analytical skills, with acute attention to detail.
- Proven ability to work effectively in a team-oriented and fast-paced environment.
- Excellent communication skills, both written and verbal.
- Proficiency in Microsoft Excel and financial modelling tools
- CFA involvement is a plus.

Location:

The position is full-time and based in Luxembourg.

Starting date:

Early 2024

If you are a motivated individual with a passion for finance and infrastructure, eager to contribute to our dynamic team, we encourage you to apply. Join Cube Infrastructure Managers and be part of our commitment to shaping the future of infrastructure investments.
