

Investment Sr. Analyst / Jr. Associate – Energy Transition Team

Cube Infrastructure Managers (“Cube IM”) is a Luxembourg-based European mid-market private equity infrastructure fund manager. Since its establishment in 2007, Cube IM has consistently leveraged its operational and financial expertise to pioneer and transform essential local infrastructure assets, particularly in sectors poised for growth through digitalization and the energy transition. Key areas of investment include datacenters, district heating, transport and environment, all of which align with the infrastructure demands of today and tomorrow.

To date, Cube IM has raised an aggregate €4.4 bn through two strategies: its flagship strategy focusing on control and co-control positions in brownfield infrastructure assets in Europe and a greenfield strategy focusing on broadband projects in Europe. Since its inception, Cube IM has successfully made more than 40 investments and over 15 exits across Europe and intends to continue to invest in profitable and responsible investment opportunities with strong growth potential.

Cube IM’s team comprises 60+ professionals representing more than 20 nationalities and is committed to fostering an inclusive and diverse culture across its organization.

In this context, we are looking for a candidate to strengthen our Energy Transition team. As an Sr. Investment Analyst / Jr. Associate, you will have the opportunity to contribute across all stages of the fund lifecycle: fundraising and investor relations, origination and identification of opportunities, investment in new platforms and subsequent asset management until divestment.

Characterized by a buy-and-grow strategy and industrial hands-on approach, the role requires a deep understanding of the sectors, a strong cooperation with local management teams, and an active involvement in the value creation strategy and key decisions of the portfolio companies.

Sr. Investment Analyst / Jr. Associate role

What you will do:

- Contribute to transactions and have exposure to all aspects of investment process, including:
 - Origination and preliminary analysis
 - Modelling, financial analysis and valuation
 - Due diligence and legal documentation negotiation
 - Presentations and internal committee notes
- Be involved in the asset management of portfolio companies, including:
 - Value creation strategy and key decisions making working closely with senior team members and the portfolio companies’ management teams
 - Monitoring the companies’ financial and commercial performance, periodic valuation and BP updates, reporting and communication to Cube IM’s internal committees and LPs.

- Assessment and validation of value creation opportunities along with management, including sizeable tender bids, M&A add-ons, refinancing, among others.
- Support investor relations and ESG policy implementation alongside other team members.

Your profile:

- 2-4 years of relevant experience (internships considered) within private equity, infrastructure fund or Investment Banking
- Outstanding academic records from a leading Finance, Business or Science/Engineering program
- Team player with strong interpersonal skills
- The ability to take informed long-term views and a genuine interest in investing, and in the energy and infrastructure sector are indispensable
- Strong knowledge of corporate finance and financial modelling skills are necessary
- Entrepreneurial spirit and a proactive mindset
- Fluency in English is required; Additional European language skills are essential, with a strong preference towards German and Nordic language capabilities.

Location:

The position is full-time and based in Cube IM's Luxembourg office. You must be willing to relocate to Luxembourg (if not already based there).
